pretty good game. I don't even know how to pass the first level

10.1/10. Piece of garbage with bad hitboxes, short-loop music, bad graphics, no instructions and no fun at all.. Why am I playing this..... You get what you paid for, 5K achievements at minimum price. If you're an achievement hunter looking to increase the number of achievements on your profile showcase, then I highly recommend buying this. Else don't waste your money. This is not a game, it's just a way of distributing achievements.. this game sucks, even for achievements.

This is not a game, it's just a way of distributing achievements.. It is basically an achievement free game.

No gameplay here.

2/10. cant beat first level. other than that some work went into the game is cool. i would suggest making the hitboxes for the saws a little bit smaller. other than that i like it. 6/10. Achievements. 1. Play the game and leave for watching anime
2. EZ 5K achievement. 3/10!

Open game and leave running = all achievements.. cant beat first level. other than that some work went into the game is cool. i would suggest making the hitboxes for the saws a little bit smaller. other than that i like it. 6/10. easy achievement unlocks, it is for achievement farming.
